We Need You!

The online organizational meetings are for anyone who wants to get involved with planning AES Columbus in the following areas:

- Education Committee (for audio educators)
- Marketing: Publicity, Public Relations, Social Media
- Industry Directory (outreach & implementation)
- Membership (outreach & member spotlight)
- Events & Planning
- Diversity & Inclusion

It's obvious every time we get together how passionate everyone is about audio; now we hope more of you will bring that passion to helping us grow the AES Columbus section in 2022. To those of you who are already contributing energy to these committees and initiatives - thank you! For those of you who are interested and want to have a voice in making our section truly great, please join the organizational meetings!

Audio Industry Resource Directory

We still want **feedback** on what categories to add to the Resource Directory!
Are there specific audio-related skills that you possess or have looked for locally?

Please share your feedback to aescolumbusATgmail.com

In Case You Missed It ...

The Pacific Northwest Section recently presented part II of "Sylvia Massy's Mindblowing Microphone Museum." [Check out Part I here!](#) After adding Bob Paquette's microphone collection to her own, Sylvia has the largest collection of microphones in the world--over 2,500 mics! It was an amazing treat to get to hear some of them in action and learn about various models from the collection!

Thanks to the [PNW Section](#) for opening up this event up to all sections.

Check the AES Loop newsletters to see what virtual events are open to us all.

Hope you all have a great holiday, and see you next year!

Rob, Lesley, and Keith
